Bright Smiles for a Healthy Future: The Importance of Dental Care Exams

The Key to a Healthy Smile: Routine Cleanings and Early Disease Detection

Just like a general physical, a regular dental check-up is essential for a healthy mouth. Bi-annual check-ups provide thorough routine teeth cleaning and can help detect oral and systemic diseases before they escalate.¹

Oral Health Diseases

50% of adults in the U.S. aged 30 years and older have some form of gum disease.²

26% of American adults have untreated tooth decay.³

Systemic Diseases

Diseases like diabetes and oral cancer can be detected, monitored and addressed with regular check-ups.³

60 Oral cancers are most commonly diagnosed in adults around the age of 60.²

Overcoming Dental Anxiety

Approximately 9 to 15% of Americans avoid going to the dentist due to fear or anxiety.⁴ It's normal to feel uneasy about seeing the dentist, but it shouldn't deter you from taking care of your oral health. Keep these tips in mind for your next check-up:⁵

Set Yourself Up for Success

Speak to your dentist in advance about your anxiety.

Schedule a morning appointment to avoid anticipation build-up.

Bring a Distraction

A fidget spinner or stress ball can distract your mind.

Bring headphones and tune into your favorite podcast, audiobook or music.

What to Expect During a Teeth Cleaning⁶

- 1 Physical examination of your mouth and teeth
- 2 Plaque and tartar removal around the gum line and between the teeth
- 3 Thorough teeth brushing with a high-powered electric toothbrush
- 4 Expert flossing to remove any remaining plaque or toothpaste

Did You Know?

Cavities are one of the most common chronic childhood diseases in the United States.²

Toothaches need to be checked by a dentist to determine whether the pain is caused by something minor or something serious.³

VBA, in partnership with TruAssure Insurance Company, offers plans that provide easier access to dental care. To learn more, visit vbaplans.com/dental.

All TruAssure dental plans are offered in association with the DenteMax Plus dental network arrangement, which includes participating dentists from the United Concordia, DenteMax and Connection dental networks.
